KIKI Agent™ – UK Co-Founder: Role Scope

A STOREGRILL INC LTD Company — Registered in England & Wales

1. Why This Role Exists

KIKI Agent is a fully built, production-deployed B2B SaaS platform (v2.0.0, 75+ API routes, 6 AI agents, 42 dashboard surfaces, 14 connectors). The technology is complete. What the company needs now is operational and commercial execution.

The Founder (Ariyo Dolapo) built the entire platform alone and will continue to own product and technology. The Co-Founder will own everything else — taking KIKI from a solo-built platform to a revenue-generating, UK-domiciled, investor-backed company.

This is not a traditional COO hire. This is a founding role requiring hands-on execution across sales, compliance, fundraising, and operations. The Co-Founder will build the commercial function from zero.

3. Ideal Candidate Profile

Must-Have

Requirement	Why
5+ years experience in ad tech, martech, or B2B SaaS	Must understand the market, buyer, and competitive landscape
UK-based (full-time, no timezone gap)	Company will be UK-domiciled; customers, investors, and regulators are UK
Sales / revenue experience — not just operations	KIKI needs revenue. First 50 customers come from founder-led sales
Existing UK D2C or agency network	Accelerates first customer acquisition by 3–6 months
Fundraising experience (or willingness to learn fast)	Pre-seed and Seed rounds are critical — no room for a learning curve
Full-time commitment from day one	This is not a side project. KIKI is at commercial inflection point
Comfortable with early-stage ambiguity	No established playbook, no existing team, no revenue yet

Strongly Desirable

Attribute	Why
Understanding of digital advertising (Meta CAPI, Google Ads, programmatic)	Technical product. Sales conversations require credible domain knowledge
GDPR / data compliance experience	UK GDPR compliance is a legal requirement, not optional
UK SEIS/EIS knowledge	Every angel investor will ask about SEIS eligibility
Network in UK investor ecosystem	Warm introductions convert at 10× the rate of cold outreach
Experience building a sales process from zero	First sales hire will learn from the playbook the Co-Founder builds

Red Flags (Will Not Work)

- Cannot commit full-time
- Looking for a salary in Year 1
- No experience selling to marketers or advertisers
- Based outside the UK
- Has competing commitments (other startups, full-time job, consulting)
- Expects to "manage" rather than "do" in Year 1

4. Decision Rights & Autonomy

The Co-Founder has full autonomy and final decision authority within their domain:

Domain	Co-Founder Authority	Requires Founder Consent
Pricing (within $\pm 20\%$ of approved tiers)	✓ Full authority	Outside $\pm 20\%$
Customer contracts (standard terms)	✓ Full authority	Non-standard terms
UK vendor selection	✓ Up to £5K	Above £5K
Hiring (sales, CS, ops roles)	✓ Interview lead	Final offer approval
Marketing spend	✓ Up to £2K/mo	Above £2K/mo
Fundraising process	✓ Full authority to manage	Term sheet approval
Accounting/tax vendor	✓ Full authority	Change of accountant
Product roadmap	✗ Input only	✓ Founder decision
